## GENDER ANALYSIS OF GHANA'S TAX SYSTEM

### COMPOSITION OF TAX REVENUE IN GHANA

#### Indirect Tax Trend (2017-2022)

Indirect taxes have shown an upward trend in their share relative to total revenues and grants.

#### VAT Decline

VAT's share in indirect taxes and total revenue has decreased due to new taxes like the GETFund levy, COVID-19 health levy, and e-levy.

#### VAT Significance

Despite declines, VAT still accounts for ~60% of indirect tax revenue and 18% of total government revenue (2012-2022).

#### International Trade Tax

Import duties, averaging ~13% from 2012-2022, have declined due to trade liberalization and currency depreciation.
